

“Whatever you do, work at it with all your heart”

Colossians 3:23

Keeping Safe

Year 4
Spring 2

Rights and
Responsibilities

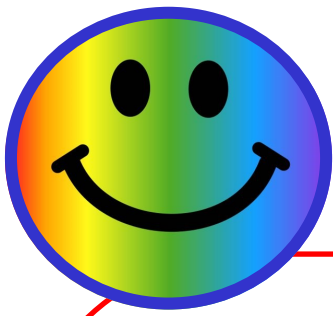

Key Knowledge

To know that:

- A trusted adult can help me manage risk.
- Not sharing personal information online is an important strategy for safe online sharing.
- All medicines are drugs.
- 'Hazard' means something which could cause harm; this is different to risk and danger;
- Dangerous, risky or hazardous situations include crossing a busy road, talking to a stranger or jumping off a cliff.
- The word 'dare' means 'someone asking you to do something risky which you feel uncomfortable with and might get you into trouble or cause harm'
- Strategies for managing dares include saying no, explaining the consequences and being firm.
- The stages of identifying and managing risk are to ask a trusted adult, know it is acceptable to say no and to trust your feelings.
- A trusted adult or trusted friend can be asked for help in managing risk.
- We can be influenced both positively and negatively;
- One of the consequences of behaving in an unacceptable, unhealthy or risky way is bullying.
- Some of the implications of sharing images online without consent are photos can be altered digitally by others and reused, geotagging, bullying etc
- Safety issues for medicine use are using them improperly (taking too much), not reading the label and being allergic.
- Alternatives to taking a medicine when unwell are to get some fresh air; drink water; eat fruit; have a rest or sleep
 - Strategies for limiting the spread of infectious diseases include hand-washing routines).
