Victorians

Year 5 Spring 2

Key Knowledge:

To know that:

The Victorian Era lasted from 1837 –1901.

Queen Victoria was queen during this time.

During this period Parliament, not the Queen, made the decisions for the country. (This has changed from the Tudors).

A key turning point in history was the industrial revolution (changing from rural work to cities and factories), powered by steam power. Impacting the development of the infrastructure (cities, roads, transport, plumbing) of Britain.

These was a technical revolution during this period. Many modern technologies were created during this period.

Electricity stemmed many of the developments in technology

The police were created during this era.

Transatlantic travel reduced from 8 weeks to 1 week.

The Victorians invented many daily commodities that we still use today.

The school system greatly improved during the Victorian Era

The postal service was created.

There were many influential Victorians: Charles Darwin, Charles Dickens, Florence Nightingale, John Cadbury.

The British Empire continued to expand during this period.
