

“Whatever you do, work at it with all your heart.”

Colossians 3:23

Year 6 – Spring 1

Curriculum Overview

English – Using quality texts as a stimulus, we are writing a narrative based on The Barnabus Project. After this, we will be writing a non-chronological report about an imaginary creature on a fictional island. In addition to this, we are writing a selection of short burst pieces of varying genres.

French – In our weekly lesson, we are learning vocabulary and language linked with food and drink.

Reading – We have two weekly lessons to develop and enhance a variety of reading skills through a wide range of quality texts. As part of our school day, we have a dedicated ERIC time four times a week.

PHSE – Following the SCARF programme we have a weekly lesson exploring, ‘Valuing Difference’.

Geography: We are looking at the Galapagos Islands with a focus on our wider world, weather and climate, conservation and sustainability.

Maths – Please see separate overview for more detail.

Music – We are using our steel pan skills to play a piece from South America. Our focus musician will be Santana. As well as building on existing skills, we will look at how to improvise using notes from a specific key.

Computing - Internet Safety underpins all that we do and, this half term, we will also be beginning our coding unit.

Physical Education – we are working at a variety of skills and sports across our two timetabled PE sessions.

Science - We are investigating classification, inheritance and evolution. Our science lessons really enhance our geography this half term and vice-versa!

Religious Education:

We dedicate our lessons to learning about God. Through discussion, we question and think about what God means to Christians.

Art- Super exciting...we are going to make MOD ROC masks. The masks are decorated taking inspiration from South America and the Galapagos Islands.
